Good Afternoon -

At yesterday's meeting, attendees discussed making educating the public and City/State Departments on the function/benefit of BIDs a 2018 initiative. I was asked to distribute the last State of the BIDs report on file so Consortium Members can review the piece and decide if we want to create a new report in 2018. You can find the file attached. Please let me know if you'd be interested in making the State of the BIDs a Consortium project in 2018.

Thank you.
